300 SECONDS / FOLD WING BUDDY - V6

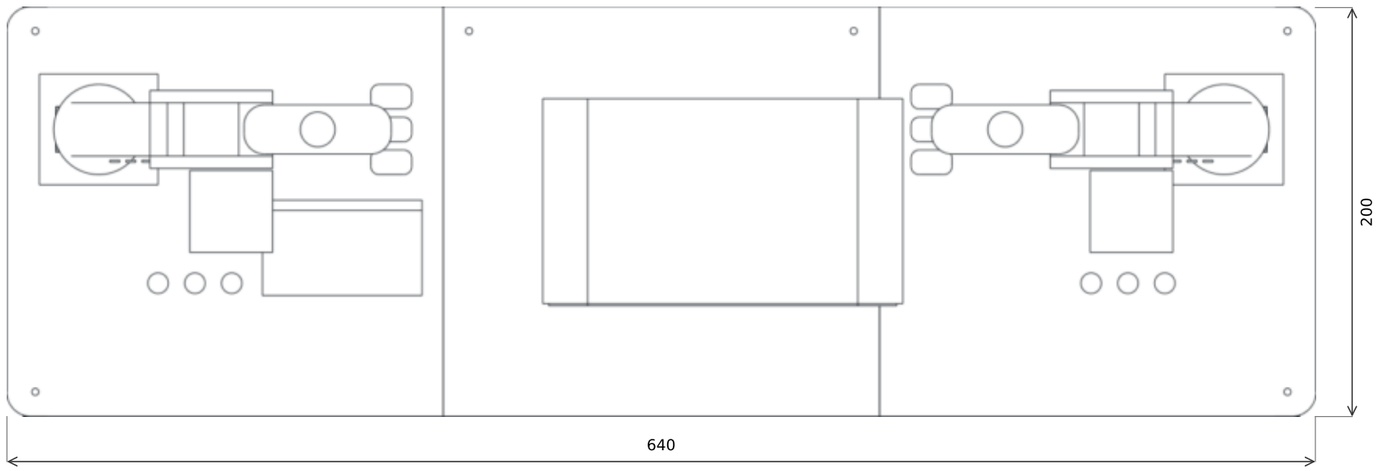

FRONT / SCALE 1:3

RIGHT / 1:3

TOP / SCALE 1:3

P0 - LAYOUT / FIT TRIAL

All dimensions in mm. Independent orthographic views.

Geometry from parametric B-rep, NOT AI imagery.

Design dimensions are chosen, not measured parts.

Speaker envelope: 400 W x 73 D x 68 H (official).

Base: 3 sections, each about 213.33 x 200 mm.

Arm axes: J1 vertical yaw, J2 horizontal pitch.

J1 datum Z130; J2 datum Z315, delta X55.

Axis distance sqrt(55^2+185^2) = 193.0026.

Servo hole pattern 49.5 x 10: supplier drawing.

Horn / shaft offset / eye PCB: MEASURE FIRST.

No final servo-horn adapter or motion clearance release.

Only static pose shown. Travel and load not verified.

Print FIT COUPONS before the large enclosure.

Do not use this concept PDF as a drill jig.
